

Volvo Flexible Plan

Just like the Volvo Purchase Plan, with the added benefit of allowing you to defer part of the cost of your Volvo until the end of the agreement. This allows you to tailor the instalments to suit your budget.

How do the plans work?

- Choose from a range of deposits.
- You then choose your agreement length from 12-48 monthly payments to suit your cashflow needs.
- Volvo then agree a final payment – taking into consideration the age, mileage and use of the car.

At the end of the agreement you pay the final payment before taking ownership of the car (you may settle the agreement at any time).
