

Volvo Car Leasing

Volvo Car Leasing contract hire makes your business life easier, by giving you access to a comprehensive range of vehicle funding packages. Volvo Car Leasing contract hire is designed to be affordable, convenient, flexible and simple. Each package can be tailored to your individual needs whether you want just one vehicle or are running a fleet. But we offer more than just a financial package. Volvo Car Leasing contract hire also takes on the time-consuming burden of managing and maintaining your fleet, so you are free to get on with running your business.

Why choose Volvo Car Leasing?

Affordable

- Exclusive Volvo offers and highly competitive rentals
- Cost-effective, giving your business an additional credit line and releasing funds for core business activities
- Minimal outlay assists cash flow
- Tax-efficient plus VAT recovery benefits
- Fixed monthly rentals allow budgetary control

Convenient

- Vehicles serviced, maintained and repaired at Volvo Dealers, with the reassurance that all work is conducted to Volvo recommended standards, using only genuine Volvo parts, maintaining warranty protection
- Volvo Car Leasing Driver Direct ensures minimal 'driver down time' through ease-of-service booking, free collection and delivery from your preferred location plus a free wash and vacuum (subject to availability)

Flexible

- Range of bespoke packages available to meet your needs
- Volvo Car Leasing Accident Management is a total in-house solution to keep your fleet mobile, removing the burden of insurance, repair and vehicle replacement administration
- Contract Management allows financial control through contract optimisation (e.g. contract extensions, contract rewrites, pooled mileage arrangements)

Simple

- Dedicated Account Management facilitates an understanding of individual needs
- Road Fund Licence included, no depreciation risk and no disposal worries
- Instant quotes available – ask your Volvo Dealer today

Contract Hire

Contract Hire is an efficient way of funding the use of a vehicle without the costs of ownership. Forward planning is simplified through fixed costs – and you avoid the difficulty of taking into account lifetime depreciation, ongoing maintenance and, ultimately, vehicle disposal.

Through Volvo Car Leasing, you only pay for the amount the vehicle has depreciated during its use, based on the mileage you cover. At the end of your contract, your vehicle is simply returned to Volvo.

Included services

- Road fund licence included for the duration of the contract
- Volvo Car Leasing Driver Direct: a quick and easy solution for service and repair bookings
- Contract amendment to term, mileage or contract type to meet your needs

Optional services

- Optional fixed-price maintenance, which includes:
 - Routine servicing
 - Maintenance
 - Tyres
 - Batteries
 - Exhausts
- Online management reporting
- Breakdown cover/European travel assistance (optional)
- Accident Management

Changing your contracts

With Volvo Car Leasing's flexible contracts, you are free to amend your term, mileage or contract type to meet your changing business needs.

Early termination

If a vehicle becomes surplus to your requirements, Volvo Car Leasing will work with you to find the most appropriate solution. In line with industry standards, if you choose to terminate your contract early, our charges will reflect the loss to Volvo Car Leasing. This involves a standard charge of 50% of the remaining rentals.

Excess mileage

We offer a pooled mileage facility if you have 10 or more Volvo Car Leasing vehicles, simplifying management and controlling costs.

Fair wear and tear

Our fair wear and tear policy requires our vehicles to be returned to us in a realistic condition related to age and mileage. Volvo Car Leasing will only charge for damaged or missing items in excess of fair wear and tear, and our policy is supported by the BVRLA-approved visual guide.
