

Fiat Personal Contract Hire

An increasingly popular, cost-effective and straightforward finance plan. It offers you all the benefits of vehicle use without some of the associated risks of ownership.

Personal Contract Hire & You

This finance plan might be best suited to you if:

- You want all the benefits of vehicle use without the responsibilities of ownership.
- You want fixed monthly repayments for easy budgeting.
- You want a complete peace of mind package.
- You want to hand back the car at the end of the agreement.

How Personal Contract Hire Works

- Low initial down payment – this is typically 3 months rental
- Monthly payments are fixed and based on an agreed lease period and mileage
- At the end of the agreement you simply hand the car back, with nothing more to pay – as long as you haven't exceeded your mileage and the condition is satisfactory.
- You can also include a full maintenance package within the monthly rental. This covers regular servicing costs as well as the costs of wear and tear to things like brakes and tyres.
